

jacdac::ServiceClient

```
graph BT; VM[jacdac::VibrationMotorClient] --> S[jacdac::ServiceClient];
```

A UML class diagram illustrating inheritance. The class `jacdac::VibrationMotorClient` is shown in a grey-shaded box at the bottom, and the class `jacdac::ServiceClient` is shown in a white box at the top. A blue arrow points from the `jacdac::VibrationMotorClient` box up to the `jacdac::ServiceClient` box, indicating that `jacdac::VibrationMotorClient` inherits from `jacdac::ServiceClient`.

jacdac::VibrationMotorClient
